EXPERIENCE

E-COMMERCE WEB APPLICATION - [EYEGLASSES STORE](#) | [SOURCE-CODE](#)

- *Seamless User Experience*: Built a user-friendly e-commerce platform for eyeglass frames with features like **OTP-based** registration, smart **search/filters,** smooth shopping experience, multiple payment options, order **tracking/management**, and **wallet** integration.
- *Shopping with Coupons***:** Implemented a coupon system with special criteria and expiration dates, enabling users to save money and **boosting sales engagement**.
- *Robust Admin Panel*: Equipped the platform with a comprehensive admin panel for **user management**, **order handling**, **product administration** (including images and stocks), **category oversight**, coupon/banner management, and detailed **sales reporting/revenue analytics**.

MINI PROJECTS

NPM MODULE - BLOGSPEAK [SOURCE-CODE](#)

- This module facilitates **audio-based blog** and article consumption, thereby **enhancing website accessibility**.

WITTALK - AI CHATBOT [SOURCE-CODE](#)

- It is an AI chatbot built using **Google's Gemini AI model.** It leverages the power of Gemini's API services to provide users with an engaging and informative conversation experience.

OLX-INSPIRED WEB APP [SOURCE-CODE](#)

- Using **React** for UI and **Firebase for backend**. Users can create accounts, list products with details and images, browse listings, and search for items.

OTT PLATFORM WEB APP [SOURCE-CODE](#)

- Using **React**. Integrates with an **API** to display latest movies based on user (Joner) preferences and **automatically showcases trailers** on the banner.
